

HIPAA FastTrack: Your Office in the Cloud

In HIPAA FastTrack™ JDL has built a cloud service that enables you to achieve compliance and security quickly and painlessly, with secure access to all of your applications anytime, anywhere, on any device. By dramatically reducing your risk, FastTrack allows you to avoid penalties and fines, pass audits, grow your practice, and enjoy providing healthcare again!

FastTrack Basic

These healthcare office essentials are provided through our secure, HIPAA-compliant cloud and are available anytime, anywhere, on any device. We manage them for you for a low monthly fee of just \$99 per user:

- Three most popular browsers
- Microsoft Office 2016
- PDF reader
- Antivirus protection

FastTrack Premium

FastTrack Premium includes all Basic and Plus plan features for a monthly fee of \$379 per user, in addition to these robust services in high demand by large medical organizations:

- Microsoft Visio Pro and Project Pro
- Nuance Dragon Dictation
- VoIP phone system from 3CX

These Features Standard with All Plans

- Secure portal access
- Company drive/File server
- Ongoing cloud management
- **Technical support for you and your staff**

FastTrack Plus – Our Most Popular Plan

FastTrack Plus is our most popular plan, and with good reason. In addition to all Basic plan features, Plus provides the ultimate in security, compliance and convenience for your office for an affordable monthly fee of \$149 per user:

- PDF writer
- Skype for business
- Citrix ShareFile
- Intrusion prevention
- File transfer protocol
- vFax virtual faxing
- QuickBooks Pro
- EMR access
- Hosted website
- AppDNA service

To learn more about all of these features, please see reverse side or contact JDL HealthTech Sales.

Your office in the cloud | At your fingertips
On any device, anywhere, anytime

Read more about each feature here

Top Three Browsers

Use Microsoft Internet Explorer, Google Chrome, and Mozilla Firefox to quickly access your existing EMR and PM applications in the cloud. Plus and Premium plans include web content filtering so you can securely browse the Internet and visit websites as well.

MS Office 2016

Microsoft Word, Excel, PowerPoint, Outlook, Publisher and OneNote.

PDF Reader / Writer

PDF Reader and Writer software by Nuance. (Reader only for Basic Plan.)

Antivirus Protection

Commercial-grade AV protection for your data and users includes critical operating system updates to keep your security strong.

MS Hosted Exchange Email

Microsoft Outlook with Hosted Exchange email, calendar and contacts.

Skype for Business

Popular collaboration tool includes Instant Messaging.

Citrix ShareFile

Securely store and share data, documents, photos, X-rays and more with our robust Citrix ShareFile tool.

Intrusion Prevention

Commercial-grade intrusion detection and prevention system (IDPS) prevents computer attacks, hacking and data loss in the cloud.

File Transfer Protocol

Moving data is done securely using FTP, per information security industry recommendations.

vFax Virtual Faxing

vFax ensures secure, compliant faxing of documents and information including patient ePHI and other sensitive data.

QuickBooks Pro

Popular accounting software tracks expenses, generates invoices, manages accounts payable and shows the financial health of your practice.

EMR Access

Secure access to EMR applications you may use currently or wish to purchase, including Allscripts, Care360, Cerner, Epic, Medisoft/Lytec and NextGen. Per-user licenses not included.

Hosted Website (Premium Plan Only)

Website hosting service includes basic design and setup for your key pages and leverages GoDaddy, an industry-leading website host.

AppDNA Service

Robust Citrix tool evaluates company applications to confirm they're ready to move to the cloud.

Business Applications

Microsoft Visio Pro and Project Professional software for diagrams, org charts and projects.

Nuance Dragon Dictation (Premium Plan Only)

Nuance Dragon best-selling speech recognition software ensures fast, accurate dictation and transcription and seamless integration across devices.

3CX VoIP Phone System (Premium Plan Only)

Take your extension with you wherever you go, with 3CX phone system software and cellphone/computer apps for your medical group. Phone desk sets sold separately.

Secure Portal Access (All Plans)

Sign in to your compliant cloud portal with speed and complete security from any device, anywhere, anytime.

Company Drive / File Server (All Plans)

Your cloud system runs on a commercial-grade file server that we monitor, maintain and upgrade to ensure peak performance.

24/7 Technical Support (All Plans)

FastTrack includes 24/7 technical support for you and your staff. (8/5 for Basic Plan only.)

Ongoing Cloud Management (All Plans)

We monitor the JDL cloud portal, our hosting facilities and your system performance around the clock from our award-winning Managed Services Operations Center. All data is backed up in our offsite datacenter and readily available should you need it.
