

Your Office in the Cloud is Open

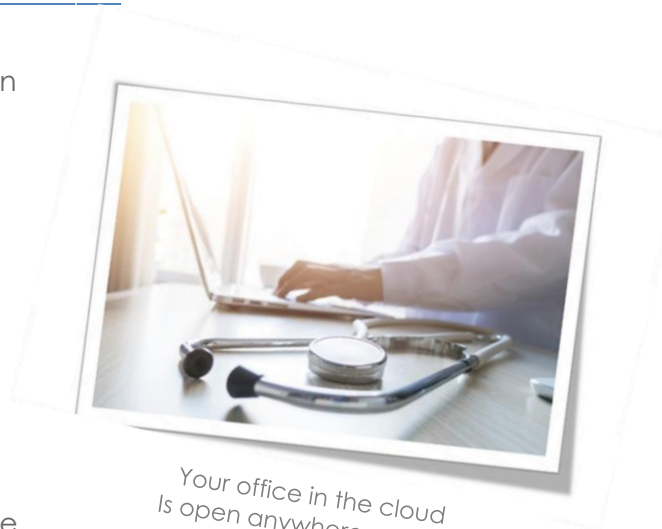

The welcome mat is out. Your office in the cloud is open for business. Just turn the key.

Every physician's dream.

In this office, your systems are fast, your processes are streamlined, and there's no need to replace outdated equipment and technology.

In this office, all of your applications are available in a heartbeat, through a single portal. A robust portal powered by Citrix, the leader in cloud technology.

A portal that's easy to access from any, or every, device in your office. Including the smartphone and tablet you take home each night.

*Your office in the cloud
is open anywhere you are*

Any time. Anywhere. Any device.

When you move your office to the cloud, everything is at your fingertips, any time you need it, from any device. And it's secure and compliant.

Electronic medical records. Practice management. Administrative applications. vFax. Spreadsheets. Forms. QuickBooks. The Internet.

Everything you need to manage a successful practice, and more, is available instantly, securely, and compliantly.

Award-winning. Fully compliant. Fast and easy.

Your fully-compliant office in the cloud is delivered through our innovative, industry-leading HIPAA FastTrack service:

- Winner of the 2016 Information Security award for Innovation in Compliance.
- Choice of healthcare providers like you who want to practice medicine, not juggle technologies or live with system slowdowns and poor performance.
- With ongoing software updates, tech support for your employees, and more.
- Ensuring fast, effortless ePHI security and HIPAA compliance for all of your offices.

Contact us today. Move into your new office tomorrow.
